The staff focus on encouraging and empowering their patients to make correct lifestyle changes that will lead them to wellness. **Dr Andrea Matthews** and **Geena Burton** join us on today's program to tell us about ELIA, its services and how it operates, what help patients can expect to receive, some of the outcomes that patients experience, and more. Do you have a lifestyle related disease? Then you need to see this program. ELIA may be the place you need to go to regain your health.

THE INCREDIBLE JOURNEY

The Incredible Journey presents: Gen Y and Z - Born to be Digital

The Internet. It's our gateway to a wealth of knowledge and social connection. Since the invention of the worldwide web in 1990, technology has taken the world by storm and, in some ways, taken over our lives. Almost all teenagers and around 2/3 of primary school kids now have their own mobile screen-based device, spending as many as 5 hours a day on social media, texting, video chatting, viewing content, and playing multi-platform video games. In this program we uncover research on the impact all of this technology is having on our lives and on our kids' mental health. – **Due to the Olympics, this program will not air on 9GEM, however you can still watch it on our website: tij.tv/shows/born-to-be-digital**
