**THE INCREDIBLE JOURNEY**

*The Incredible Journey presents: **The Wonders of Space***

*Space is awe-inspiring with its immeasurable distances, incalculable numbers, incomparable speeds, incomprehensible spheres, and inconceivable power. The universe's vastness, filled with trillions of objects across billions of galaxies, is beyond human comprehension. There are more stars than grains of sand on Earth—100 sextillion visible through telescopes. We can only observe a small fraction of the universe, making an accurate count of stars impossible.*

*– Due to the Olympics, this program will not air on 9GEM, however you can still watch it on our website: [tij.tv/shows/the-wonders-of-space](http://tij.tv/shows/the-wonders-of-space)*
