**Transfer In** - First Reading: Claudette Knight would love to keep worshipping with us by transferring her membership from Gosford Church to Wye Church.

## From our Church Board's last meeting ...

“Wyee SDA Church board approved Avondale University students to run the Re-Think Life evangelistic program from **June 19th to 28th, 2025**, and that they also be approved to lead and participate in Discovery Bible Reading (DBR) groups where they will interact with non-churched or returning members on a weekly basis, with the goal of multiplying small groups and discipleship. There will be 4-5 groups (two of which are already functioning) running with 2 students in each to lead. The Uni provides all the training and covers costs. We ask that you encourage the students and bring a friend or family member who you think will be suitable to join a group and/or attend the evangelistic program (ask [Pr Nathan] if you are unsure)”.

**The Incredible Journey: The Black Box**  
After a tragic plane crash claimed the life of his father, David Warren set out to change the mystery surrounding plane crashes. Inspired by his childhood fascination with radios and recording devices, he invented the flight data recorder, now known as the Black Box—a device that would revolutionise air safety. However, his groundbreaking idea was initially met with resistance, as pilots feared it would invade their privacy. But Warren persisted, and his invention eventually became a mandatory feature on all commercial flights worldwide. But why was it originally rejected? How did a simple childhood gift spark one of the most important aviation breakthroughs? And why is the “Black Box” actually bright orange? Join us as we uncover the incredible story behind this life-saving invention.

## 3ABN 1-hour Interview

What is the difference between deafness and being hard of hearing? If they are different, do you help these two impairments in the same way? How does hearing loss affect communication, mental health, and relationships? Audiologist **Graham Weir** answers these questions, and more. He also leads us through the most recent technology to help hearing impaired individuals enjoy church attendance—something many with hearing impairment are not able to do. What can WE do to help our deaf and hard of hearing church members have a meaningful church/fellowship experience each week? Listen and learn so you can make a difference for this often forgotten group within our churches. 3ABN Australia’s 1 hour interview program, 3ABN Now, can be viewed on 3ABN International every week on Sundays at 8:00pm, repeated Tues., 8:00pm and Wed., 10:00am. The guest this Sunday is Graham Weir (Hearing Support In Churches). Next Sunday are Melody Mason & Shiloh Howard. Apart from the VAST satellite, you can also watch online at [www.3abnaustralia.org.au](http://www.3abnaustralia.org.au), [3abnplus.tv](http://3abnplus.tv) (scroll down to 3ABN Australia), or on the free phone App.
