*The Incredible Journey* presents:

**The Moabite Stone and the Story of Ruth**

Scholars had long debated the existence of the Moabites until the discovery of the Moabite stone in 1868. Frederick Klein, a travelling medical missionary, first made the discovery. It was then further investigated by a French archaeologist, Charles Clermont-Ganneau. The stele was inscribed with a message from King Mahesa of Moab, who is also mentioned in the biblical book of Kings. One of the most touching stories about a Moabite is found in the Book of Ruth. It's a story of heartbreak, inspiration, and restitution. Join us this week as we dig deeper into this fascinating story.
