### *The Incredible Journey*

#### **Foods that Heal the Brain**

Did you know that the foods we eat daily determine our brain's health and well-being? Some questions lurk in our minds: Could the foods we eat really affect our ability to concentrate, learn, and remember? Can some foods even harm our brains? Well, nutritionists tell us that parts of the brain linked to learning, memory, and mental health are smaller in people who have lots of fast food, fries, potato chips and soft drinks in their diet. However, their research shows that berries, whole grains, nuts, and green leafy vegetables preserve brain function. So, what does this mean for us? Join Gary as he and a nutritional neuroscientist discuss the impact of food on our brains - the best foods and those that harm our brains.

### *3ABN Interview*

Our guest this week is **Johnny Wong**, known around the world for being a church planter, and trainer of workers for God's vineyard. But did you know that he hasn't always been involved in God's work? He was once a very successful executive, travelling the world for a large corporation. How did God get hold of Johnny and turn him into a blessing for His work, someone who has helped many people come to a personal relationship with Jesus? Join us for this exciting program to hear Johnny's testimony. Learn what you and your church can do to reach other people for Jesus. With AFCOE@home, YOU can be trained to become a worker for God right where you are!. 3ABN Australia's 1 hour interview program, 3ABN Now, can be viewed on 3ABN International every week on Sundays at 7:00pm, repeated Tues, 7:00pm and Wed, 9:00am. Next Sunday is also Johnny Wong.
