The Incredible Journey

The World's Most Notorious Atheist - Antony Flew

The British philosopher Antony Flew was a powerful voice against the existence of God. He was a prominent atheist known for his work in the field of philosophy of religion and his arguments against the existence of God. For more than fifty years, he promoted his atheist agenda in the universities where he taught. However, later in his life, he rejected atheism and became a believer in God. What changed his mind? 9GEM: Sunday, 28 September at 8:30am. YouTube: watch any time after 6:30pm on Friday, 26 September.

A Digital Missionary?

The NNSW Conference is excited to be working with our church to help us get online so we can engage with our local community and increase our missional impact. As social media usage continues to grow, they want to make sure we're able to develop meaningful connections with our community by using tools like YouTube, Facebook and Instagram.

Social media will connect our community with us more than just on Thursdays and Sabbath.

A 'soft launch' has started, beginning with our social media journey, toward digital mission.

It's a simple 3-step process! Like ... Follow ... Share

For the moment, this is all we need to know. Some may already know how to do this, and it's OK if not – it's easy to learn how.

Of course, this is just the beginning of the journey and the Conference is looking forward to growing with us along the way. Together, we will reach people where they are and help them to know their Saviour.

Stay tuned for more ...
