Dr Sven Östring joins us for the program this week. He has edited and put together a book called "Rising Waters Enduring Faith", in which Sven, with other scientists and educators, investigate the historical and global reality of the Bible's flood account. The book investigates it from an educational, theological, and scientific viewpoint. Some of the science disciplines used are anthropology, palaeontology, and geology. Radiometric dating, volcanoes, and the ice age are also examined. What conclusions do the investigators come to? Find out by watching the program and be informed by this intriguing book. You can also watch online at www.3abnaustralia.org.au, 3abnplus.tv (scroll down to 3ABN Australia), or on the free phone App.

The Incredible Journey

The King's Dream that Destroyed Hitler and the Nazis

World War II, the deadliest conflict in history, began in 1939, when Nazi Germany invaded Poland. Adolf Hitler dreamed of uniting Europe and building an empire to rule the world, but he ignored a prophecy by the Bible prophet Daniel written over 2,500 years earlier. Rejecting God, Hitler believed his armies could conquer Europe, declaring, "See, my people, we do not need anything from God! We want to fight our own war, with our own guns, without God." In this program, we explore King Nebuchadnezzar's dream in Daniel 2, a prophecy that outlines world history, explains why leaders like Charlemagne, Charles V, Louis XIV, Napoleon, Kaiser Wilhelm II, and Hitler all failed to unite Europe - and reveals what is still to come.
